Sales Performance Analysis Report

Jan 2022 – Sep 2023 · 50 Stores · 5 Product Categories

Data Analyst Portfolio Project – Viera – 铭汐

EXECUTIVE SUMMARY

\$14.44M

Total Revenue

Jan 2022 – Sep 2023

\$4.01M

Gross Profit

27.8% overall margin

Toys

Top Category

\$1.08M profit

Downtown

Best Store

\$8.22M revenue

Key Findings

1. Electronics leads in profit margin (44.57%) — nearly double the next category, despite having only 3 SKUs.
2. Art & Crafts drives the highest unit volume (29.87% of all units sold), with 3 products in the Top 10 Most Sold.
3. Toys generates the highest absolute profit (\$1.08M) on strong volume, though at the thinnest margin (21.2%).
4. Downtown stores account for 56.9% of total revenue across 29 of 50 locations.
5. Airport stores (only 3 locations) generate revenue comparable to Residential stores (6 locations) — high potential per store.

REVENUE & PROFIT TRENDS

Nov 2022

Peak Month

\$950K revenue

Sep 2023

Lowest Month

\$620K revenue

~\$688K

Avg Monthly

revenue / month

Observation: Revenue peaks in Aug–Nov 2022, suggesting a seasonal back-to-school / holiday effect. A sharp drop in Sep 2023 may indicate end-of-dataset truncation rather than a true demand decline.

CATEGORY PERFORMANCE

💡 Electronics has the highest margin (44.57%) with only 3 SKUs — expanding this category could significantly boost overall profitability without adding volume pressure.

PRODUCT DEEP DIVE — TOP & BOTTOM PERFORMERS

Top 10 Most Sold (Units)

Bottom 10 Least Sold (Units)

STORE PERFORMANCE

Total Revenue by Store Type

Revenue per Store (Efficiency)

Store Type	# Stores	Total Revenue	Rev / Store
Downtown	29	\$8.22M	\$283K
Commercial	12	\$3.28M	\$273K
Airport	3	\$1.29M	\$430K ★
Residential	6	\$1.66M	\$276K

★ Airport stores generate the highest revenue per location (\$430K avg) — despite only 3 stores, this location type is highly efficient.

RECOMMENDATIONS

Toys

Increase Stock

- Increase stock for Lego Bricks, Action Figure, and Animal Figures (Top 10 Most Sold).
- Maintain current stock levels for remaining Toys SKUs — no underperformers detected.

Art & Crafts

Expand + Prune

- Increase stock for PlayDoh Can, Barrel O' Slime, and Magic Sand (3 products in Top 10).
- Discontinue Playfoam: only 4,158 units sold in 21 months (~4.0 units/store/month).
- Monitor quarterly — demand for craft products can shift with trends.

Electronics

Expand Category

- Highest profit margin at 44.57% with only 3 SKUs — significant upside potential.
- Prioritize expanding Colorbuds-type products (wireless audio). It is the #1 bestseller across all categories.
- Note: monitor for product version cycles to avoid holding obsolete stock.

Games

Hold & Monitor

- Second-lowest profit but strong margin (30.27%) — classic timeless titles (Monopoly, Uno, Rubik's Cube).
- No products below the 5,000 unit threshold. Maintain current stock levels and restock only when depleted.

Sports & Outdoors

Discontinue 1 SKU

- Lowest margin (23.28%) and lowest absolute profit (\$505K).
- Mini Basketball Hoop: only 2,647 units sold in 21 months (~2.5 units/store/month) — recommend discontinue.
- Maintain other Sports & Outdoors SKUs at current stock levels.

Store Expansion

Prioritize Airport

- Airport stores generate \$430K revenue per location — the highest efficiency across all types.
- If expanding, Airport locations should be the top priority before Downtown or Commercial.
